Gain control of your printed documents and make an impact when communicating. One versatile printer covers all your printing needs from general office to oversize documents.

Now you can handle all your business printing and 11 x 17-inch output in your own office using a single printer. Print everyday business documents and marketing materials as well as wide-format projects at an affordable price—often less than printing at a copy shop.

Make an impact by putting your business in the best light. Using in-line printer architecture, four colors are aligned and applied in a single pass for reliable, accurate print quality.

The printer's control panel is intuitive and instructive. Networked models are easy to share, and it's a snap to replace and order supplies.
